

Ravindra B. Bapat had his schooling and undergraduate education in Mumbai. He obtained B.Sc. from University of Mumbai, M.Stat. from the Indian Statistical Institute, New Delhi and Ph.D. from the University of Illinois at Chicago in 1981.

After spending one year in Northern Illinois University in DeKalb, Illinois and two years in Department of Statistics, University of Mumbai, Prof. Bapat joined the Indian Statistical Institute, New Delhi, in 1983, where he holds the position of Head, Delhi Centre at the moment. He held visiting positions at various Universities in the U.S., including University of Connecticut and Oakland University, and visited several Institutes abroad in countries including France, Holland, Canada, China and Taiwan for collaborative research and seminars.

The main areas of research interest of Prof. Bapat are nonnegative matrices, matrix inequalities, matrices in graph theory and generalized inverses. He has published more than 100 research papers in these areas in reputed national and international journals and guided two Ph.D. students. He has written books on Linear Algebra, published by Hindustan Book Agency, Springer and Cambridge University Press. He has recently written a book on Mathematics for the general reader, in Marathi, which won the state government award for best literature in Science for 2004.

Prof. Bapat has been on the editorial boards of Linear and Multilinear Algebra, Electronic Journal of Linear Algebra, Journal of Mathematical Sciences and Kerala Mathematical Association Bulletin. He has been elected Fellow of the Indian Academy of Sciences, Bangalore and Indian National Science Academy, Delhi.

Prof. Bapat served as President of the Indian Mathematical Society during its centennial year 2007-2008. For the past several years Prof. Bapat has been actively involved with the Mathematics Olympiad Program in India and served as the National Coordinator for the Program. He was awarded the J.C. Bose fellowship in 2009.
